HFC-6000, "NUCLEAR SAFETY CONTROL SYSTEM" (TAC NO. MC5380)

Dear Mr. McCreary:

By letter dated November 11, 2004, HFC submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) HFC-6000, "Nuclear Safety Control System." Subsequently, by letter dated April 5, 2007, HFC requested withdrawal of its TR from NRC review. Based upon your request, the NRC staff will terminate its review of TR HFC-6000.

In the withdrawal letter, HFC indicated that it planned to submit a revision to TR HFC-6000 prior to July 15, 2007. This revised submittal will take into account the draft requests for additional information and revisions that reflect NRC staff guidance. The review schedule milestones will be discussed and agreed upon in a telephone conference between your staff and the NRC staff once the TR is resubmitted.

The NRC staff is committed to improved communications with HFC in future endeavors. If you have any questions regarding this matter, please contact Jon H. Thompson on (301) 415-1119.

Sincerely,
