

April 5, 2007

Mr. Fred Yapuncich
Project Manager
Packaging Technology, Inc.
1102 Broadway Plaza, Suite 300
Tacoma, WA 98402

SUBJECT: ACKNOWLEDGMENT OF RECEIPT OF A REQUEST FOR REVISION 4 FOR
THE MIXED OXIDE FRESH FUEL PACKAGE, CERTIFICATE OF
COMPLIANCE NO. 71-9295 (TAC. NO. L24054)

Dear Mr. Yapuncich:

By letter dated January 19, 2006, Packaging Technology, Inc., submitted an application to the U.S. Nuclear Regulatory Commission (NRC) requesting a revision to the Mixed Oxide Fresh Fuel Package, Certificate of Compliance (CoC) No. 71-9295. The application requests three new payloads be added to the CoC. In addition, several corrections and clarifications to the Safety Analysis Report are requested.

This is to inform you that the application appears to contain the necessary information to begin our technical review. Our review schedule allows for the staff to issue a possible Request for Additional Information (RAI) in early June 2007. If no RAI is needed, and based on the staff's evaluation, the amended CoC may be issued at approximately that time.

In general, no additional changes to the application will be allowed except for those minor changes or minor supplements that result in responding to an RAI. Additional changes, supplements, or enhancements may be treated as a new application.

F. Yapuncich

-2-

Please notify me, in writing at your earliest opportunity, of any circumstance that may result in your inability to respond to a possible RAI in the proposed time frame. Please reference Docket No. 71-9295 and TAC No. L24054 in future correspondence related to this review. If you have any questions regarding this matter, please feel free to contact me at (301) 492-3332 or via email at jsc1@nrc.gov.

Sincerely,

/RA/

Jill S. Caverly, Project Manager
