Dear Mr. Lawyer,

This is a follow up to a telephone conversation with Dr. V. Sidorov on 04/12/2007 regarding Amendment to Material License 06-30460-01. We hereby confirm that

1. Dr. J. Backer (SibTech, Inc.) should be excluded as a supervisor and as an authorized user of radioactivity under amended Material License 06-30460-01.
2. The use of radionuclides Carbon 14, Phosphorus 32, Phosphorus 33, Iodine 125 should be excluded from amended Material License 06-30460-01. These isotope have never been received, used, or shipped at SibTech, Inc.
3. The use of radionuclide Sulfur 35 should be excluded from amended Material License 06-30460-01. The last time Sulfur 35 containing compound was received and used at SibTech, Inc. in March 2001. After decay in storage, the Sulfur 35 containing waste was discharged on June 14, 2006.
4. We request license transfer to Ambios Labs, Inc. be effected as of June 1, 2007. Please disregard previous request for a transfer as of May 1, 2007.

Sincerely yours,

Joseph M. Backer, Ph.D.
CEO SibTech, Inc.

Victor Sidorov, Ph.D.
