

April 27, 2007

Mr. Larry W. Clark  
Assistant Manager for Nuclear Fuel Supply  
U.S. Department of Energy  
Oak Ridge Office  
P.O. Box 2001  
Oak Ridge, TN 37831

Dear Mr. Clark:

USEC Inc. (USEC), a licensee of the Nuclear Regulatory Commission (NRC), recently submitted plans for establishing classified computer networks at the Lead Cascade facility in Piketon, OH. In your letter dated February 13, 2007, you stated that the Department of Energy Oak Ridge Office (ORO) would act as the Designating Approval Authority (DAA) for USEC classified computer networks.

Enclosed are the plans which USEC submitted (AET 07-0006). Our staff has performed an acceptance review and determined that they were acceptable for detailed review. We are now providing them to you for review as the DAA. Please conduct the review consistent with the approach taken in the review process that was attached to my previous letter dated December 22, 2006.

Please keep us informed of the results of the ORO staff review. Mr. Brian Smith of my staff is the point of contact for this endeavor. He may be reached at 301-415-7457 or via e-mail to [bws1@nrc.gov](mailto:bws1@nrc.gov).

Sincerely,

/RA/

Robert C. Pierson, Director  
Division of Fuel Cycle Safety  
and Safeguards  
Office of Nuclear Material Safety  
and Safeguards

Docket No.: 70-7003  
License No.: SNM-7003

Enclosure:  
USEC Letter Dated March 7, 2007
