

April 17, 2007

Mr. Jayant Bondre
Director of Engineering and Licensing
Transnuclear, Inc.
7135 Minstrel Way Suite 300
Columbia, MD 21045

SUBJECT: AMENDMENT NO. 9 TO CERTIFICATE OF COMPLIANCE NO. 1004 FOR THE
STANDARDIZED NUHOMS® SYSTEM

Dear Mr. Bondre:

As requested by your application dated April 18, 2006, enclosed is Amendment No. 9 to Certificate of Compliance (CoC) No. 1004 for the Transnuclear, Inc. (TN) Standardized NUHOMS® System. This amended certificate, issued by the U.S. Nuclear Regulatory Commission (NRC), constitutes the approval and establishes the conditions for use of the Standardized NUHOMS® System for storage of spent nuclear fuel under the general licensing provisions of 10 CFR Part 72, Subparts K and L. The amendment revises the CoC for the Standardized NUHOMS® System to include the Framatome-ANP, Version 9x9-2 fuel assemblies as authorized contents for storage in the NUHOMS®-61BT dry shielded canister.

As stated in the Federal Register (72 FR 4615, February 1, 2007), the effective date of the amended CoC is April 17, 2007. Enclosed for your information are copies of the amended CoC (including Appendix A, Technical Specifications), and the NRC staff's final Safety Evaluation Report. We request that you update and submit three copies of the final safety analysis report to conform to the amended certificate, within 90 days. If you have any comments or questions concerning this amended certificate, please contact Mr. James R. Hall at 301-492-3319.

Sincerely,

/RA/

Robert A. Nelson, Chief
Licensing Branch
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety
and Safeguards
