Dear Dr. Beasley:

Enclosed is Amendment No. 02 to your NRC Material License No. 24-32595-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions.

Please note that I was unable to approve Ted Moore, M.D. as an authorized user for the use of material in 10 CFR 35.100 and 35.200 at this time because the information in your letter dated January 25, 2007, was insufficient to complete my review. If you wish to pursue this matter, please submit the information requested, addressed to my attention and referenced as "additional information to control number 315989." We will then continue our review.

Specifically, Dr. Moore was not approved as an authorized user because, contrary to the assertion made in your letter dated January 25, 2007, Dr. Moore was not named to the license number given, 15-26381-01. I checked this license back to its origin and no Dr. Moore was ever named on it.

Please submit written information demonstrating that Dr. Moore meets the regulatory requirements in 10 CFR 35.13, 35.14, 35.57, 35.59, 35.190 and 35.290, as appropriate.

Please refer to the above regulatory requirements as well as section 8.11, item 7 and Appendices B, D and E in NUREG 1556, Vol. 9, Rev. 1, for assistance in preparing your response.

If Forms 313a will be used in support of your response, please use the newly revised Forms found on our website at:

[http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a\(aud\).pdf](http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a(aud).pdf)

In addition, if Dr. Moore is certified by a medical specialty board that we no longer accept, you may find the guidance in RIS 2003-17 helpful, found at this link on our website:

<http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2003/ri200317.pdf>

Please do not submit resumes, CV's, or personal, proprietary information that we must protect, in accordance with 10 CFR 2.390, such as social security numbers, dates of birth, home addresses or phone numbers, patient records, college transcripts, etc.

Please also be reminded of the provisions in 10 CFR 30.9(a), "Completeness and accuracy of information,"...(a) Information provided to the Commission by an applicant for a license or by a licensee or information required by statute or by the Commission's regulations, orders, or license

conditions to be maintained by the applicant or the licensee shall be complete and accurate in all material respects."

If you have any questions concerning this amendment, please contact me at either (800) 522-3025 or (630) 829-9841. My fax number is (630) 515-1078.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

Colleen Carol Casey  
Materials Licensing Branch
