Dear Dr. Tate:

Enclosed is Amendment No. 32 to your NRC Material License No. 13-12367-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please note that we have reformatted subitems 6. and 7. and license condition 12 to remove references to "excluded" or "limited to" authorizations such as "xenon-133". Please be reminded, however, that you are still bound by the restrictions imposed by the excluded authorizations contained in documents incorporated into Condition No. 15 of your license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
