

SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION

1. LICENSEE/LOCATION INSPECTED: H. C. Nutting Company 912 Morris Street Charleston, WV 25301	2. NRC/REGIONAL OFFICE Nuclear Regulatory Commission Region III 2443 Warrenville Rd. Lisle, IL 60532
REPORT	2007-001

3. DOCKET NUMBER(S) 030-37135	4. LICENSEE NUMBER(S) 34-18882-03	5. DATE(S) OF INSPECTION April 12 & 16, 2007
----------------------------------	--------------------------------------	---

LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, NUREG-1600, to exercise discretion, were satisfied.

_____ Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

(Violations and Corrective Actions)

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

PROGRAM SCOPE

The licensee is a large engineering firm located in the city of Cincinnati, Ohio. The site inspected was the field office located in Charleston, West Virginia. This licensee performs soil density and compaction testing over the southeastern region of the country. The licensee has twelve Troxler 3440 series gauges and four CPN gauges. The gauges are normally stored at licensee's authorized storage facility located in Charleston. The licensee does not performed any service or maintenance activities on the gauges. The licensee employees twenty gauge users who have completed the manufacturers training.

Performance Observations

Licensee demonstrated how the gauge is used for the inspector. Interviews of licensee personnel indicated an adequate level of knowledge of radiation safety.

Independent surveys of the gauge storage area indicated minimal results. Although licensee personnel are badged, readings for the past year were nominally at the minimum level. Licensee has implemented the new gauge security policy. Adequate security is provided for in the storage location and in the trucks used to transport the gauges.
