

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
475 ALLENDALE ROAD
KING OF PRUSSIA, PENNSYLVANIA 19406-1415

April 17, 2007

Docket No. 03020934
Control No. 140016

License No. 37-23341-01

Michael Fuller
Manager, Heath Physics and Engineering
UniTech Services Group, Inc.
295 Parker Street
P.O.Box 51957
Springfield, MA 01151

SUBJECT: UNITECH SERVICES GROUP, INC., LICENSE AMENDMENT AND
WITHHOLDING OF PROPRIETARY INFORMATION, CONTROL NO. 140016

Dear Mr. Fuller:

This refers to your license amendment request dated January 29, 2007. Enclosed with this letter is the amended license.

You included a letter and affidavit dated January 29, 2007, requesting to withhold the information in your amendment request letter based upon your conclusion that this information is proprietary commercial property as allowed under the provisions of 10 CFR 2.390. We have reviewed your request and have determined that the information may be withheld from disclosure to members of the public, as provided in 10 CFR 2.390. However, please be reminded that we will review our decision in its entirety if we receive a request for disclosure of the information under the Freedom of Information Act.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Industrial, and Academic Uses of Nuclear Material**; then **Regulations, Guidance and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

M. Fuller
UniTech Services Group, Inc.

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Amendment No. 25

9. Authorized use:

- A. through D. For the collection, laundering and decontamination of contaminated clothing and other launderable non-apparel items; for the collection and decontamination of respirators and other such non-launderable non-apparel items that are used in conjunction with a protective clothing program; and for the possession of contaminated equipment in the licensee's portable laundry unit.

CONDITIONS

10. Licensed material may be used only at the licensee's facility located at 401 North Third Avenue, Royersford, Pennsylvania, except that contaminated items may be picked up, received and possessed in licensee's transportation vehicles. Contaminated equipment in the licensee's portable laundry unit may be possessed anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material.
11. Licensed material shall be used by, or under the supervision and in the physical presence of Daniel R. Neely or individuals who have received the training described in the letter dated July 28, 2005.
12. The Radiation Safety Officer for this license is Daniel R. Neely.
13. If only a single radionuclide specified in 10 CFR 30.72, Schedule C, is possessed, the possession limit shall then be the quantity specified in Schedule C. If two or more radionuclides are possessed, then the possession limit for each shall be determined as follows: the sum of the quotients of the quantities possessed, divided by the quantities of those radionuclides specified in Schedule C shall not exceed unity.
14. This license does not authorize the packaging nor possession of radioactive waste except that generated as a result of the laundering activities performed in the licensee's permanent laundry facility located at North Third Avenue, Royersford, Pennsylvania.
15. This license does not authorize the laundering of contaminated items at temporary job sites of the licensee nor at customer facilities except as specifically authorized pursuant to the terms and conditions of specific licenses issued to customers of the licensee by the U.S. Nuclear Regulatory Commission or an Agreement State.

Amendment No. 25

16. The licensee may release liquid effluents to unrestricted areas as described in the licensee's letter dated July 24, 1998. The licensee shall limit liquid releases so that CEDE to individual members of the public in the unrestricted area remains below 4 millirem per year. Within 90 days of determining by calculation that an individual member of public could receive in excess of 0.25 millirem per calendar quarter, the licensee shall provide a specific written evaluation to the U.S. Nuclear Regulatory Commission, 475 Allendale Road, King of Prussia, Pennsylvania 19406, regarding licensee initiatives, and their basis, which will be used to assure member of the public doses remain as low as reasonably achievable. The methodology used to calculate CEDE shall be in accordance with that established in the licensee's letter dated July 24, 1998.
17. The licensee shall, within 90 days following the end of each calendar quarter, submit to the U.S. Nuclear Regulatory Commission, 475 Allendale Road, King of Prussia, Pennsylvania 19406, a report which provides the total volume of water, the concentration of each radionuclide discharged during that calendar quarter to unrestricted areas, and the resulting calculated CEDE to an individual member of the public in the unrestricted area. The report shall include the information in, and be in a format equivalent to, the report included as Appendix 1 in the licensee's letter dated July 24, 1998. The methodology used to calculate CEDE shall be in accordance with that established in the licensee's letter dated July 24, 1998.
18. The licensee may transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material".
19. The licensee is authorized to transfer 1 liter wastewater samples to unlicensed laboratories for non-radiological analysis, provided that 1) the concentrations of radionuclides in such samples do not exceed the concentrations specified in 10 CFR 30.70 Schedule A, 2) the quantities of radionuclides in such samples do not exceed the quantities listed in 10 CFR 30.71 Schedule B, or 3) for those radionuclides not listed in Schedules A or B, the concentrations of radionuclides in such samples do not exceed those acceptable for release to unrestricted areas as listed in Appendix B, Table 2, Column 2 of 10 CFR Part 20.

Amendment No. 25

20. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Letter dated July 24, 1998 (ML060110189)
 - B. Letter dated January 28, 2003 (ML030300668)
 - C. Letter dated April 8, 2003 (ML031060392)
 - D. Letter dated July 28, 2005 (ML052130126)
 - E. Letter dated December 16, 2005 (ML053620329)
 - F. Letter dated January 4, 2006 (ML060090420)
 - G. Letter dated January 29, 2007 (ML070320071)
