In the Matter of
DOMINION NUCLEAR NORTH ANNA, LLC
(Early Site Permit for North Anna ESP Site)
Docket No. 52-008-ESP

Dear Administrative Judges:

As part of its pre-hearing submissions dated April 10, 2007, the Staff of the Nuclear Regulatory Commission ("Staff") designated, as part of the "NRC Staff Exhibit List," each witness it plans to produce for each of the seven hearing topics listed in the Atomic Safety and Licensing Board's ("Licensing Board") March 20, 2007 Order.¹ See Exhibit List at 3. In making its final preparations for the evidentiary hearing, the Staff has determined that two witnesses, already identified in the Exhibit List, will also need to be empaneled to testify on two additional topics. The Staff anticipates that these additional witnesses will ensure that each panel will be able to fully address the Licensing Board's questions. As such, the Staff respectfully requests to revise its witness list, as set forth below, to add these witnesses to the panels that will address Hearing Topics 2 and 6.²

Topic 1: Surface Water Impacts and Possible Mitigation Measures
Lance W. Vail
Jeffrey A. Ward
Dr. Michael T. Masnik
Dr. Michael J. Scott

² The revisions are identified in **bold** text.
