

April 18, 2007

LICENSEE: AMERGEN ENERGY COMPANY, LLC  
FACILITY: THREE MILE ISLAND UNIT I NUCLEAR POWER STATION  
SUBJECT: SUMMARY OF THE APRIL 11, 2007 ANNUAL ASSESSMENT MEETING  
WITH AMERGEN

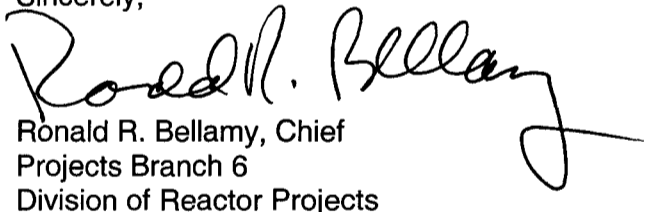

On April 11, 2007, at 7:00 p.m., the NRC conducted an Annual Assessment Meeting with Amergen Energy Company at Londonderry Township Building in Middletown, PA. The NRC requested the meeting with AmerGen management to present NRC's assessment of the safety performance of the Three Mile Island Nuclear Power Station Unit I for the calendar year 2006.

A notice of licensee meeting was issued on April 3, 2007 and was posted on the NRC's external (public) web page (ADAMS Accession No. ML070851468).

The NRC presented and discussed its assessment of the safety performance of Three Mile Island Unit I for the period between January 1 through December 31, 2006, as documented in our letter dated March 2, 2006 (ADAMS Accession No. ML070610515). The NRC presentation included background on the Reactor Oversight Process (ROP), TMI assessment results, and an overview of planned inspections for the remainder of the year. The NRC's overall assessment was that Amergen operated Three Mile Island Unit 1 in a manner that preserved public health and safety. During the meeting, AmerGen stated they were in general agreement with NRC's assessment and discussed planned areas for improvement.

Local officials, the press and numerous members of the public observed this public meeting and were offered the opportunity to question the NRC regarding AmerGen's performance and the role of the agency in ensuring safe plant operations at the end of the meeting. The question and answer session accommodated all individuals who desired to speak or ask questions after the business portion of the meeting had been completed.

Sincerely,

Ronald R. Bellamy, Chief  
Projects Branch 6  
Division of Reactor Projects
