Subject: January visit to UZOO

Good Morning Rastislav: January 3, 2002

Will the IAEA staff be bringing any IAEA equipment to UZOO during the upcoming visit which will be going into the plant?

If so, could you provide me a description of the equipment and the IAEA property numbers for the equipment. I understand that if this information is provided in advance that the facility review of the IAEA equipment (refer to Attachment C-1 of the UZOO DIQ) should be completed quicker.

We wish to remind you that in addition to the facility review of the equipment that the IAEA inspectors will need to take the facility safety and access refresher training. To facilitate down loading of IAEA information, we suggest that the inspector team consider splitting such that initial access and equipment inspections can be conducted in parallel before or after the refresher training.

We also wish to remind you that the IAEA inspector team will be asked park their vehicles outside the BWXT property, behind the credit union bank building that is located at the beginning of the plant access road. You will be met there by BWXT personnel with a van to take the IAEA team and their equipment onto the plant property.

I look forward to your reply.

Thank You
Brian Horn
