Subject: IAEA Update

I just talked with Mr. Benjamin Torres-Barrios of the IAEA. He confirmed that the IAEA will be sending a staff member to BWXT to fix the equipment problem. The name of the IAEA will be either Pete Ikonomou or Ok-Seok Seo. Both of these IAEA staff members are currently in August, GA. They are both currently scheduled to be at BWXT February 17-19 for the routine monthly IAEA inspection.

Benjamin said that he will have a fax to me either today or tomorrow morning confirming the above information.

My next step is to telephone BWXT and relay the above information and confirm that BWXT will voluntarily hold down blending operations until the IAEA staff arrive tomorrow morning.
