RE: Change of status for License No. 37-31135-01

Attention LAT:

I am writing to inform the Commission of a change in the status of the radiation safety officer for my Company and to notify you of an upcoming amendment to the above referenced license number.

The radiation safety officer for my company, John Dilello, left my employment abruptly on March 30, 2007. Since that time the Nuclear Moisture/Density Gauge has been in safe, secure storage at 1023 Mulberry Street, Berwick, PA. The gauge will not be used until a new radiation safety officer is trained and certified and an amended license is secured.

Myself and another employee are scheduled for training in May. Following certification, an amendment request will be sent to your office.

A site inspection was performed by your office on April 3, 2007 and no violations were identified.

Sincerely,

Dennis R. Peters, P.E.
President
