Re: Amendment to License No. 21-01430-01

Please amend our license as follows.

Amendment No. 103 granted us permission to possess our existing HDR unit and our new HDR unit during the installation and training phase. This is now complete and we are asking that you remove the authorization for the old HDR unit and the Ir-192 sealed source which was approved for only that unit.

Please remove Item 6 J. from our license which is "Ir-192, Sealed Sources Model NO. 096-001, manufactured by Mallinckrodt Medical BV or AEA Technology, Inc."

Please remove Item 9 J which is the Authorized Use for the above sources.

The current Items 6K and 9K should remain on our license.

Thank you for your assistance. If you have any questions, please feel free to contact me at 517-364-2167.

Sincerely,

Martin W. Johnson, M.S.
Radiation Safety Officer
