PSEG Nuclear LLC

CNO Introduction and Overview

Salem and Hope Creek are being operated safely

Plant performance has improved

Improved the work environment

- Operationally focused organization
- Clear roles and responsibilities
- Consistent direction
- Accountability

Establish Independent Operation

Resume Corporate Support

Stage 1 Identify Requirements (Jan-Mar)

Determine organization required
Complete leadership staffing
Review Management Model Controls
Identify Critical Skill Gaps
Identify industry participation and support

Stage 2 Create Plan (Mar-Jun)

Develop plan to resume functions from Exelon

- Transition into station organization
- Transition into Corporate Function
- Transition into Operations Support Organization
- Outsource
- Eliminate

Complete organization staffing

Stage 3 Execute Plan (Jul-Dec)

Implement Plan
Check and adjust accordingly

Continue Day to Day Management Model Execution

How we execute day to day will not change.

How we manage the corporate support functions will be determined.
