Subject: Questions regarding June 8, 2006 amendment request

Mr. Poletti,

I am processing the Environmental Assessment regarding your June 8, 2006, amendment request (license 25-19852-01, docket 030-19324) for unrestricted release of Building 7 of your facility. At this time, I have a few questions that I was hoping you could address. Please note that your response will be made part of the official docket file for your license.

1. What is the overall size of your facility (square feet, acres, etc.)?
2. Describe the area that surrounds your facility (residential, industrial, commercial, mixed, etc.).
3. What is the overall size of Building 7 (square feet, etc.)?
4. What is the size of the East Room (where licensed materials were stored) of Building 7 (square feet, etc.)? From reviewing your file I believe that it is 15 x 15 square feet - can you confirm?
5. When did licensed activities cease in Building 7 (month, day, and year)?

Thanks in advance for your response.
Janine

Mr. Poletti,

Thank you for the clarifying information. In the June 8, 2006 amendment request I saw your survey grid for the East Room which indicated 13 feet x 15 feet, and our draft EA said "approximately" 15 x 15 square feet. I noticed the slight discrepancy and just wanted to be as accurate as possible for the FRN.

Speaking about the grids, I was reviewing Section B "Locator maps and Grid Coordinates." I noticed that the first page survey description is "floor," the second page survey description is "east wall," the third page survey description is "south wall," the fourth page survey description is "east wall," and the fifth page survey description is "north wall." It seems like one of the surveys labeled "east wall" might actually be the "west wall." I realize that the survey results are exactly the same. The only difference appears to be that one wall had a ventilation duct. Can you recall if it was the east or the west wall that had the ventilation duct? Could you possibly review the survey location maps and let me know if one of them is labeled incorrectly?

Thanks,
Janine

Ms. Katanic,

I apologize for the discrepancy. The west wall had the ventilation duct.
