Brian, Chris

I am a Reactor Engineer at DC Cook. I am reviewing BR-0007 Draft. I have the following minor comment.

- Page 13, line 29 refers to block 8 of the DOE/NRC Form 742C. With the changes to the form, I believe it should refer to block 5.
- Page 17, line 11 refers to block 8 of the DOE/NRC Form 742C. With the changes to the form, I believe it should refer to block 5.
- Page 17, line 20 refers to a footnote for the different enriched uraniums. The previous Material Type tables have been changed to have all the "E" codes in the table. If you are going to leave it this way, the "Enriched uranium" is not lined up with the other Descriptions.
- Page 18, line 36 refers to block 8 of the DOE/NRC Form 742C. With the changes to the form, I believe it should refer to block 5.
