Re: Clinton Power Station – Docket No. 50461

The NRC's safety evaluation on Clinton's emergency plan annex dated March 12, 2007 (ML070540270) references two letters from the utility: ML061920575, dated June 30, 2006, and ML063530752, dated December 19, 2006. Neither of these appears in ADAMS. I am requesting that they be entered into the ADAMS database. It is my understanding from checking with PDR that both letters are coded "non-sensitive" and "pending review" but do not have a release date. They requested the PM as to the status but never heard back from him. Thank you.
