

April 27, 2007

MEMORANDUM TO: File

FROM: Mark D. Notich **/RA/**
Environment Projects Branch 1
Division of Site and Environmental Review
Office of New Reactors

CALL PARTICIPANTS: Mark Notich, NRC
Cristina Guerrero, NRC
Corey Duberstein, PNNL
Tom Moorer, SNC
Jake Minix, PhotoScience

SUBJECT: REPORT OF CONVERSION WITH SOUTHERN
NUCLEAR OPERATING COMPANY (SNC) AND
PHOTOSCIENCE CONCERNING THE PLANT VOGTLE
EARLY SITE PERMIT (ESP) ENVIRONMENTAL REPORT
(ER) CORRIDOR STUDY

On Friday, April 20, 2007 at 1:00 pm EDT, the U.S. Nuclear Regulatory Commission (NRC) staff and contractor, Pacific Northwest National Laboratory (PNNL) held a conference call with representatives from Southern Nuclear Operating Company (SNC) and PhotoScience concerning the Plant Vogtle Early Site Permit (ESP) Environmental Report (ER) corridor study. Due to the incompatibility of spatial data provided in a shapefile with ADAMS, Corey Duberstein (PNNL), requested for PhotoScience to provide a graphic that represents the data within the shapefile for ADAMS. This request from PNNL for shapefile(s) and a corresponding pdf file may provide a long-term solution to the incompatibility issues with ADAMS, since one can easily see in graphic format what was represented within the shapefile(s).

The call concluded with SNC summarizing what is still needed by the staff. PhotoScience is providing the shapefile and a map to be emailed to Tom Moorer (SNC), which will be forwarded to Mark Notich. Shapefile(s) will be transmitted the week of April 23, 2007.

Docket No.: 52-00011

CONTACT: Laura Quinn, NRO/DSER/RAP2
