RE: Close-out survey, license #37-28723-01

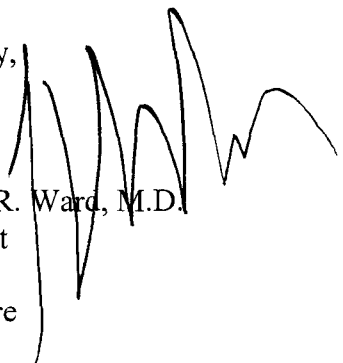

To Whom It May Concern:

Enclosed please find a copy of the close-out survey performed at our old location at 311 West 24<sup>th</sup> Street, Suite 401, Erie PA 16502. All materials have been transferred to the new facility and no radioactive materials remain at the old location.

We request that the location at 311 West 24<sup>th</sup> Street, Suite 401, Erie PA 16502 be removed from our license as an area of use and that it be released for unrestricted use.

Thank you for your attention in this matter.

Sincerely,

  
Samuel R. Ward, M.D.  
President

## Close Out Survey

Date: 4/6/2007

Name: Consultants in Cardiovascular Diseases, Inc  
311 West 24th Street  
Erie, PA 16502

NRC license #: 37-28723-01  
PA license #: PA-0644

Survey instrument: Bicron G-M Model #: 2000 Serial#: B679G

Last calibration date: 3/5/07

Check source reading: 4.5 mR/hr

Wipe test Ludlum 2200 scintillation well counter

Last calibration: Day of use, using Cs-137.

Wipe test window: Open - 50-700 kev

Minimum detectable activity: 107 dpm with Co-57.

Well counter efficiency: 88.9% with Co-57.

Wipe analysis background: 741 cpm.

G-M survey background: 0.02 mR/hr.

Surveyors: *Lisa Kaiser, R.T.*

### Area Surveyed:

A complete contact survey using a G-M meter on the lowest range was conducted in the hot lab and imaging rooms. Specific areas were surveyed as identified on the attached diagram and survey results indicated no exposure levels in excess of background.

### Surface wipe tests:

Surface wipe tests were completed using Nu-Con dry smears. Surfaces wiped included the hot lab counters, storage areas and floors, and imaging room counter tops and floors as indicated on the attached diagram and summary sheet of wipe test results. All wipes were performed over an area of at least 100 cm<sup>2</sup>. The results are recorded as dpm.

Results:

Areas surveyed are at background levels or less. Wipe testing results indicated identifiable or removable contamination. All sealed sources have been transferred to our new location at 2315 Myrtle Street; Suite G-10, Erie, PA 16502.

Conclusion:

Old area of use is free of radioactive materials and removable contamination.

Recommendations:

Signs indicating the presence of radioactive materials in the restricted area have been removed or defaced. All materials have moved to the new location. The old area of use at 311 West 24th Street, Erie, Pa 16502, should be released for unrestricted use upon approval of the NRC and PA DEP and this area should be removed from our materials licenses.
