Subject: Re: BWXT June Shutdown

Neville,

Ex 4

NRC has received the following confirmation from BWXT Downblending Facility, UZOO, that their operations will be shut down from (b)(4)

(b)(4) We have received the IAEA notification that G. Bernasconi will visit the facility on July 4-6 to verify the restart and functioning of the equipment following replacement of the BWXT UPS.

Bruce

Please relay to the Agency that BWXT (b)(4)

(b)(4) BWXT will be performing maintenance during the period including the replacement of the BWXT UPS that serves the IAEA equipment. It is our understanding that an IAEA inspector will arrive at BWXT on July 4 to verify the functioning of the equipment before the processing of material is restarted.

If there are any questions please call me at 434-522-5186

Don Cutchins

IAEA Coordinator
