Subject: Training of Proposed RSO

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: The licensee proposed an individual as new RSO to replace the current RSO. A review of the proposed individual's training documentation indicated that the individual has adequate training to be RSO. I called the licensee to inform that their license requires them to ensure that a proposed RSO has the training and experience as described in NUREG-1556, Vol. 4, and that the documentation does not demonstrate that the individual has had such training.

The licensee left a message on my voice mail. The message stated that the individual does not have the specified training and therefore, their request is being withdrawn. They will submit the request after the individual has completed the required training.
