TECHNICAL REPORT 74A - GENERIC TECHNICAL SPECIFICATIONS COMPLETION

PROJECT NUMBER 740

TR74A-1      Enclosure 1 of Westinghouse's AP1000 COL Standard Technical Report Submittal dated December 15, 2006, has three bracketed sets of information (on pages 5.2-2, 5.6-1, and 5.6-2) marked with the number 17. The number 17 annotates information that will be provided by the specific combined license (COL) Applicant in the plant specific technical specifications for that applicant. However, the bracketed text on these three pages is taken directly from the standard technical specifications (NUREG-1431) and is generic in nature. It is not clear why this information would need to be modified by the COL applicant. Please clarify if the three bracketed items will be generic (and therefore no longer marked with the number 17) or will remain site specific information to be reviewed and approved for each COL applicant.
