Mr. Nader Mamish
Deputy Director Division of Preparedness & Response
Office of Nuclear Security and Incident Response MS 06H2
Washington, D.C. 20555

Dear Mr. Mamish,

Previously, The State of South Carolina informed you of our intent to request a re-supply of our state's Potassium Iodide (KI) stockpile from your agency. While we had agreed upon moving forward with the re-supply effort, we had determined there were pieces of specific information, due your agency, our state needed to confirm prior to the finalization of this agreement.

The most important information requiring confirmation was current and projected population increases in the 10-mile Emergency Planning Zones (EPZs) for the nuclear plants operating within the State of South Carolina. Originally, we designated the five existing plants affecting our state: Catawba Nuclear Station, H.B. Robinson, Oconee Nuclear Station, V.C. Summer and Vogtle Electric Generating Plant.

Your agency had requested a breakdown of the KI dosage increments desired. Based upon the population in the surrounding EPZ and given our desire for a greater ease in the distribution of KI, we are requesting that the entire re-supply be with 65 mg tablets. The total number of tablets needed is as follows:

460,000 population x 4 tablets (65mg) (per adult) = 1,840,000 65mg Tablets

In regard to the delivery of this supply we would like to request a delayed delivery date for the stockpile. Our agency is in the process of constructing a state pharmacy to house medications such as the KI currently being requested. A delayed shipment date would allow us time to ensure that the facility is ready to receive the shipment. The requested delivery timeframe we would prefer would be mid-to-late September 2007. If the requested timeframe becomes unrealistic, for your agency, we would be more than amiable to discussing a more mutually beneficial date.

We still plan to have the delivery made to the address we provided you in our last letter. To confirm the delivery address and point of contact information is as follows:

Mr. Richard Lipinski
SCDHEC, Bureau of Land and Waste Management
Stern Building
8911 Farrow Road
Columbia, South Carolina 29203

The South Carolina points of contact for this project are:

Administrative/procedural:	Sandra Threatt	(803) 896-4095
	Richard Lipinski	(803) 896-4097
Medical Issues:	George ("Tom") Fabian, MD	(803) 898-0316
Media Issues:	Thom Berry	(803) 898-3885
	Mary Nguyen Bright	(803) 896-4099

Should you need any additional information, please feel free to contact any of the individuals listed above.

Thank you for your assistance regarding this matter.

Sincerely,

C. Earl Hunter
Commissioner
