RE: **Amendment to License**
NRC License No. 37-30704-01
Docket No. 030-35895

RECEIVED
REGION I

Dear Mr. Lodhi:

During a recent visit by NRC Inspector Richard H. Ladun, it was brought to our attention that our existing license does not allow for our portable, nuclear moisture-density gauges (gauges) to be temporarily stored at the field technicians' homes overnight. We are writing to request an amendment to our existing license allowing our technicians to keep the gauges, which are securely stored, in the trunk of a car or bed of a pick-up, overnight while on job sites which do not require our technicians to return to the office on a daily basis. These gauges will be returned to the licensed storage facilities on weekends and holidays or when not in use.

I trust that this is the information you require. Should you have any questions or require additional information, please do not hesitate to contact the undersigned.

Sincerely,
ADVANTAGE ENGINEERING

Daniel R. Schauble, Jr.
