FOIA and Privacy Act Request

To Whom It May Concern:

I am seeking access to records under the Freedom of Information Act and the Privacy Act (if applicable in this case).

I am an intern with the New Mexico Environmental Law Center in Santa Fe, NM. In order to add to our database we would like to collect information pertaining to the company Uranium Resources Inc. (URI), and/or its subsidiary company, Hydro Resources Inc (HRI).

We would like to know if:

1. The NRC has ever denied a materials or operating license to these companies in the companies' history in any of its current, past, or proposed locations and why?
2. If any (how many) or all of HRI's source material licenses were or are allowed to posses uranium in any of its locations. If not, why was this uranium possession denied?

We are willing to incur any fees associated with these records findings and their copying. We would prefer to receive hardcopies of any and all information, however if there are electronic documents those will certainly be fine to receive as well. If you have any questions please contact:
