Chuck - fyi - the SRM I mentioned yesterday is in ADAMS at ML011690046. Clearly, we'll need to go back to the Commission if we propose shortening the public comment period. And by leaving it at 75 days, we have good justification for not granting extensions, which gives us more certainty for scheduling our staff and contractors.

Also, I checked the comment period for a sample of the license extensions granted or in progress (Browns Ferry, Farley, Hatch, Summer, Oyster Creek, Pilgrim, and Harris). They were all 75 days or more (for example, Harris is the shortest with 75 days scheduled and Farley was 85 days).
