**Subject:** Re: Request for Documents

Mark,

We will start gathering these. Wouldn't the Philadelphia Academy of Science be better able to provide their reports?

Subject  
Request for Documents

Drew:

The NRC has requested several documents from Southern Nuclear Operating Company (SNC) that SNC cited as containing information that may be pertinent to the Plant Vogtle Early Site Permit impact assessment. It turns out SNC cannot obtain these documents without going through a FOIA process because they were developed by DOE. The NRC staff needs these documents to complete our assessment of impacts from the proposed Units 3 and 4 at Vogtle. The listing of the documents is attached. Any help or support toward obtaining these documents for the staff would be

greatly appreciated. Let me know if you have any questions. Thanks.

Mark
