COMMENTS: Notification of incidental take

**PSEG NUCLEAR LLC
COURTESY NOTIFICATION OF SEA TURTLE
INCIDENTAL TAKE**

SPECIES: Caretta caretta

CARAPACE LENGTH (CCL): Approximately 86 centimeters

CARAPACE WIDTH (CCW): Approximately 51 centimeters

WEIGHT: n/a

CONDITION: Alive and healthy

COMMENTS: The sea turtle was recovered during a trawl on the New Jersey side of Delaware Bay between Sunset Beach and The Villas on 7/17/04 at approximately 0720 hours. The sea turtle was removed from the opening of the trawl but was never removed from the water. The flippers were checked for tags and none were found. The animal appeared to be in excellent health and was immediately released.
