RE: Buried Pipes and Tanks Inspection Program- Pilgrim

I have been unsuccessful in a search for a complete list of the buried pipes and tanks in scope at Pilgrim - could you please provide one, today.

Ideally I would like to be able to visualize where they are on a map; and also learn what systems that they connect to.

If you can not put your finger on this information, please provide the contact information for those who can.

I trust that this a straight-forward question; and after the site review it should be readily available.

Thank-you and enjoy the good weather at last.
