Subject: RE: 14.3-98 status

Amy,

We are also carrying this item in our "clean up" list. The response to RAI 14.3-98 references MFN 06-382 as the letter which provided the response to RAI 14.3-67. This is not correct. MFN 06-382 is actually our internal designation for the NRC RAI letter that transmitted RAI 14.3-67. We have not yet submitted the response to RAI 14.3-67. When that response is submitted, we will correct the reference in the response to RAI 14.3-98 by issuing a RAI supplement.

Thanks,

Kathy

Kurt/Kathy: I was trying to clean up our database and I am trying to find out the status of 14.3-98

14.3-98 response dated 12/22/2006 (ML070120120) referenced MFN-06-382

"Per Nitin Patel, GE is correcting the response. In the GE response, GE has referenced the GE report MNF 06-382 which is not found or submitted by GE to NRC."

Was the reference to MFN-06-382 a typo? Was the reference submitted?

Please let me know the status,

Thanks,
Amy
