Mr. Mancuso,

After reviewing these Preflight reports, I only have one concern and that is the font issues. If in fact the font errors are only on the scanned images, then we're ok. If they are fonts in the native application that are not embedded, then they need to be embed. Other than that, you've generated a very clean PDF. I appreciate you cooperation and willingness in getting the PDF comply to our rules.

Thanks,  
Kenny Nguyen
