Re: April 18, 2007 Shearon Harris Plant License Renewal Public Hearing

I am an employee at Progress Energy that has responsibility for working with several of our third party coalitions. The attached resolutions had been previously collected, but I forgot to bring them with me when I attended the public hearing. Therefore, I am submitting them now into record prior to the May 19 deadline.

Feel free to contact me at (919) 546-3690 with any questions. Thank you for your attention to this matter.

**Resolution in Support of the Continued Safe and Secure Operation
of the Shearon Harris Nuclear Plant**

WHEREAS, the Shearon Harris Nuclear Plant (hereafter referred to as the Harris Plant), which went into operation in May 1987, provides a safe, efficient and economical source of electricity; and

WHEREAS, in November 2006, Progress Energy intends to file for a 20-year extension to the Harris Plant's operating license, allowing the plant to continue operating until 2046; and

WHEREAS, renewing the Harris Plant's operating license will help ensure that Progress Energy can continue to provide the electricity needed for the growing Triangle region; and

WHEREAS, the Harris Plant supplies power to more than 550,000 residences and businesses, and provides 12 percent of the total electricity generated by PE Carolinas; and

WHEREAS, In 2005, the Harris Plant generated more than 7.9 million megawatt-hours of electricity, the largest volume in its 18 years of operation; and

WHEREAS, the Harris Plant has been consistently ranked by its peers among the top nuclear plants in the country in terms of safety, production and cost; and

WHEREAS, Progress Energy has a 35-year track record of operating nuclear plants safely and securely, and the plant features multiple backup systems to ensure safety; and

WHEREAS, the Harris Plant is closely monitored by on-site inspectors from the Nuclear Regulatory Commission; and

WHEREAS, the 650 professionals who work at the plant and live in the community are committed to the safety and security of the site; and

WHEREAS, nuclear energy produces no greenhouse gas emissions that contribute to global climate change; and

WHEREAS, nuclear power helps the United States reduce dependence on unstable foreign energy supplies; and

NOW, THEREFORE, BE IT RESOLVED that the Raleigh-Appalachian NMACP supports the continued safe and secure operation of the Harris Plant and encourages the Nuclear Regulatory Commission to extend the Harris Nuclear Plant's operating license an additional 20 years.

This the 12 day of January, 2007.

RE: Support for Harris Nuclear Plant License Renewal

Dear Sir or Madam:

On behalf of the more than 300 members of the Triangle Urban League, I am writing in support of license renewal for the Harris Nuclear Plant.

The Harris Plant has been a part of the local community for two decades and has proved to be an outstanding corporate citizen, providing significant economic benefits to the surrounding community. Since 1987, the plant has been generating safe and efficient electricity to more than 550,000 homes and businesses. More than 600 people work at the Harris Plant and live in the surrounding communities in Wake, Chatham, Harnett and Lee counties.

Renewing the Harris Plant's operating license will ensure that Progress Energy can continue to provide the electricity needed to fuel the growing Triangle region far into the future. As an organization that is committed to improving the quality of life of residents in the Triangle, the Urban League recognizes that renewing the license at the Harris Plant is also a key part of Progress Energy's balanced solution to meeting the growing energy needs of our region.

We support the continued safe and secure operation of the Harris Nuclear Plant and encourage the Nuclear Regulatory Commission to extend the plant's operating license an additional 20 years.

Sincerely,

Keith Sutton, President & CEO
Triangle Urban League
