Subject: Information-Only Copy of 10 CFR Part 72 Certificate of Compliance (CoC) 1004
UFSAR Appendix W, related to the Application for CoC 1004 Amendment 11

Dear Mr. Sebrosky:

Transnuclear (TN) has submitted a request for Amendment 11 to CoC 1004, which includes, in part, certain aspects of the design and operation of the OS197L transfer cask. The balance of those design and operations aspects have been added to the CoC 1004 UFSAR through the 10 CFR 72.48 process and are included in a new UFSAR appendix (Appendix W).

The parts of Appendix W approved by the 72.48 process will be incorporated into the next revision to the UFSAR and provided to the NRC. In order to facilitate the NRC staff's review of the Amendment 11 application, eleven copies of a complete Appendix W are provided here. The shaded portions of Appendix W are included in the Amendment 11 application and were not approved by the 72.48 process.

TN requests that this information not be docketed and that it be returned or destroyed following the staff's use. Please note that the drawings included in W.1.5 contain proprietary information.

Should you have any questions regarding this information, please do not hesitate to contact Mr. Don Shaw at 410-910-6878 or me at 410-910-6860.

Sincerely,

Tara Neider
President
