SUBJECT: 1. Request to add authorized user to NRC License No. 45-00317-02.  
2. Request to appoint same user as the Radiation Safety Officer.

Dear Penny Lanzisera:

First of all, thank you and please thank your co-workers for steering me through this process (the various 313As, etc.). I have the notes from our conversation yesterday and hope to meet NRC requirements with the following notification letter we spoke of.

On March 6, 2007 the Radiation Safety Committee met. Among the items on the agenda was a discussion and vote to add Dr. Joanne Walker as an authorized user and assume the position of Radiation Safety Officer for our facility (License No. 45-00317-02), pending approval by the NRC.

I received acknowledgement of receipt of request dated 3/23/07 and assigned Mail Control Number 140287.

I would like to submit additional information at this time to help assure you of her qualifications. In addition to the previous information which included her as an authorized user on 45-11367-02 (St Mary's), she was also an authorized user on 45-16231-01 (Henrico Doctors).

If I can provide anymore information please contact me at (804) 862-5584, or kevin\_mullen@chs.net.

Thank you for your cooperation.

Sincerely,

Kevin Mullen  
Director of Nuclear Medicine
