FILE LOCATION: ADAMS

DATE DUE:

DATE SIGNED:

ANNUAL TOWN MEETING
MARCH 10, 2007
DUXBURY PERFORMING ARTS CENTER
73 ALDEN STREET,
DUXBURY, MA

The meeting was called to order by the Moderator at 9:05am, recessed for lunch at 12:15pm, reconvened at 1:15pm, recessed at 5:05pm until Monday at 7:30pm and adjourned sine die at 10:20pm all at the Duxbury Performing Arts Center.

Article 38-Pilgrim Aging Management Plan-Moved and seconded that the town vote to approve the matter set forth in Article 38:

"That the Town of Duxbury will advocate that the Pilgrim Nuclear Power Station's aging management plan, now and in the future shall consist of more effective methods to inspect and monitor for leaks of radioactive water from systems and components, including underground pipes and tanks, including the proper placement and regular inspection of monitoring wells between the reactor and Cape Cod Bay in order to better protect public health, safety and our marine aquaculture. The Town Clerk of Duxbury shall forward the text of this Article to the Town of Duxbury's State and Federal delegations, to all Select Boards within the Emergency Planning Zone of Pilgrim NPS, the Nuclear Regulatory Commission and Entergy Corp., so that the intent of the Citizens of Duxbury is widely known. Motion carried

ANNUAL TOWN MEETING
MARCH 10, 2007
DUXBURY PERFORMING ARTS CENTER
73 ALDEN STREET,
DUXBURY, MA

The meeting was called to order by the Moderator at 9:05am, recessed for lunch at 12:15pm, reconvened at 1:15pm, recessed at 5:05pm until Monday at 7:30pm and adjourned sine die at 10:20pm all at the Duxbury Performing Arts Center.

Article 39-Pilgrim Plume Transport Model-Moved and seconded that Town of Duxbury will advocate that the Pilgrim Nuclear Power Station's plume transport model be changed from Straight-line Gaussian model (Class A models) to more complex models (Class B) to more accurately reflect the variable and complex wind and weather conditions that are affected by sea breezes, terrain, buildings and variable precipitation. Now Pilgrim is allowed to base inputs to their Class A models from the meteorological tower on site. The on-site tower only tells what wind direction is on site, but not what happens to the plume as it travels offsite. Computerized combination weather radiation monitors are readily available. They must be required to be placed in appropriate offsite locations, determined by a meteorological site-specific analysis, so that protective actions called for in an emergency are appropriate and accurate studies of potential health effects from exposure can be preformed. The Clerk of Duxbury shall forward the text of this Article to the Town of Duxbury's State and Federal delegations, to all Select Boards within the Emergency Planning Zone of Pilgrim NPS, the Nuclear Regulatory Commission and Entergy Corp., so that the intent of the Citizens of Duxbury is widely known. Motion carried
