Name of Licensee: Tennessee Valley Authority

Name of Participant(s): Robert E. Alsup

Telephone No. 423-751-8251

Subject: RAI, License Amendment

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: The license is written like a Broad B license and not a R&D limited scope as it currently is encoded. Are you providing service other than for TVA? Do you want the license to be encoded as a Broad B or submit specific personnel for authorized users? Mr. Alsup said he didn't know the answer to those questions and would get back to me.

I asked if Ms. Beth A. Wetzel should replace Terry Knuettel as Management Contact. He said yes she should. I also obtained the telephone numbers for the management contact and the Radiation Safety Officer.

I also stated that this would be a good time to reduce the amount of materials authorized if they wanted to lower there financial assurance requirements.

Action Required: Mr. Alsup would get back to me about the above questions.
