SUBJECT: SUMMARY OF APRIL 26, 2006, CATEGORY 2 MEETING ON
FREQUENTLY ASKED QUESTION PROCESS REGARDING
NATIONAL FIRE PROTECTION ASSOCIATION STANDARD 805

On April 26, 2006, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting, via teleconferencing, with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association Standard 805. Licensees introduced and discussed the revised versions of four FAQs at this meeting. The staff presented written comments on five FAQs. The staff also discussed a proposed Regulatory Issue Summary (RIS) related to the FAQ process and presented a sample of the proposed technical content. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

All participants agreed that the next monthly meeting should occur on May 17, 2007, at Nuclear Energy Institute headquarters, and that the June meeting should occur on June 21, 2007, via teleconferencing.

The new FAQs, revised FAQs, and written responses introduced at the meeting are available in the Agencywide Documents Access and Management System. The accession numbers for the revised FAQs are ML071020174, ML071020181, ML071020160, and ML071080099. An attachment to one of the revised FAQs is available at ML071020169. The accession numbers for the NRC staff responses are ML071380177, ML071380182, ML071380186, ML071380189, and ML071380194. The sample RIS content is available at ML071380206. The NEI 805 Task Force FAQ Log, a meeting handout, is available at ML071340198. Two other handouts are available at ML071380199 and ML071380202.

A list of meeting attendees is enclosed with this memorandum.
