

## MEETING REPORT

DATE: May 14, 2007

TIME: 1:00 p.m. to 2:00 p.m.

PLACE: The Curtis Hotel  
1405 Curtis Street  
Denver, Colorado

PURPOSE: Sidebar meeting with Crow Butte Resources, Inc., (CBR) to discuss status of flow increase amendment, update on license renewal application, and the forthcoming North Trend amendment.

ATTENDEES: See attached Attendance List.

BACKGROUND: CBR will be submitting license amendment applications for the North Trend satellite, license renewal, and potentially Three Crow. These are in addition to the flow increase amendment currently being reviewed by the Nuclear Regulatory Commission (NRC).

DISCUSSION: After all participants were introduced, CBR informed NRC staff that they are currently working on three projects. The permit application for the North Trend satellite will be submitted on May 21, 2007. For this application, they separated out the environmental report and the technical report.

The second project is the plant upgrade, which is currently under review by NRC staff. CBR informed NRC staff that the NDEQ will approve the upgrade.

The third project is the Three Crow satellite. CBR has performed pumping tests and is currently gathering all the environmental information. They expect to submit an application by the third quarter in calendar year 2008. CBR wanted to know if data collected in 1994 is suitable for use in the Three Crow application. CBR will submit the Three Crow aquifer exemption request to the U.S. Environmental Protection Agency in August 2008.

CBR finally stated that the license renewal application will be submitted by December 2008.

ATTACHMENTS: 1. Meeting Agenda  
2. Attendance List

ACTIONS:

NRC - NRC to provide decision regarding the use of environmental baseline data from 1994.

Enclosure

MEETING AGENDA  
Crow Butte Resources, Inc.  
Monday, May 14, 2007  
Denver, Colorado
