D-01

Coffey County Lake Kansas
Normal Pool Elevation 1087
Surface Area Acres 5,090

Map Saftey Notice

This map is not to be used for navigation.As the contour of the bottom of the lake changes over time.However you will find the map very useful in creating waypoints,routes and track log. This you can upload to your gps and find spots on the lake that look interesting To Fish. There is a lot of dangerous underwater structure in the lake in the form of large rocks.There is a rock shelf that extends out approx 700 feet from the power house.That is just Three feet deep.

The producer or retailer Assumes no responsibility for lake changes,errors or ommissions.
