RE: **Control No. 316153** – Amendment request by letter dated March 30, 2007, to add Professor Lifeng Dong, Ph.D., of the Physics Department, as an Authorized User for License No. 24-11585-04.

Dear Mr. Hueter,

Per our telephone conversation, it has been my discovery that Dr. Lifeng Dong is using 25 g of Uranyl Acetate purchased from Ted Pella, Inc. After speaking with the company directly, it was discovered that the Uranium used is depleted and very low or exempt amounts. Therefore, Dr. Dong will not need to be placed on License No. 24-11585-04.

Please remove Dr. Albert Gordon from the Missouri State University License. He is retiring at the end of this month and will no longer be at the University.

I appreciate all your assistance with this matter and others over the last few days. It has been a relief to know that you are available for your expertise and guidance concerning our University Radiation Safety Program. Please contact my office directly with any questions (417) 836-4132.

Respectfully,

A handwritten signature in black ink, appearing to read 'Tracey L. Poston'.
