Re: Route Approval Request, RAI

Dear Mr. Layton,

Secured Transportation Services (NRC Docket 070-07011) has been contracted to coordinate a truck shipment of spent fuel from Naval Weapons Station, Charleston, SC (NWS-C) to the DOE's Savannah River Site (SRS), near Aiken, SC. We submitted that a request to NRC on January 3, 2007. On March 5, 2007, we received your RAI dated February 27.

Please find our corrections enclosed.

Please note that the Governor's Designee for South Carolina is now Michael Moore, who was listed as "acting designee" in the original request.

If you have any questions, or need additional information, please contact Roy Boyd or me at the number above.

Sincerely,

Blake R. Williams
