Mr. Robin DeLaBarre  
U.S. Department of State  
2201 C Street, NW  
Office of Nuclear Energy Affairs, Room 3318  
Bureau of International Security and Nonproliferation  
Washington, D.C. 20520

Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM3500), recently received by the U.S. Nuclear Regulatory Commission, for the export of low-enriched uranium (LEU) to Japan for use as reload fuel in the Fukushima I, Units 2, 3, 4 and 5; Fukushima II, Units 3 and 4; and Kashiwazaki-Kariwa, Units 1, 2, 3, 4, 5, 6 and 7 nuclear power reactors. Assurances from Japan, that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian, Canadian, and Russian origin; converted in France, Russia, the United Kingdom, and the United States; enriched in France, Russia, the United Kingdom and/or the Netherlands; and re-converted in the United States. It, thus, has Australian, Canadian, and EURATOM obligations.

Sincerely,

*/RA/*

Stephen Dembek, Branch Chief  
Export Controls and International Organizations
