### Multiple Conversations with John Stuart (JS) RSO

The reviewer spoke to JS on several occasions the last being on 5/17/07. The licensee want to add a physician to the license for 100 and 200 material, however, the preceptor form was not properly filled out and needed corrections. The preceptor did not represent himself as a Doctor, no M.D. or D.O. after his name, there was not evidence that the preceptor was an AU at the Univ. Of New Mex., item 11.a. of the preceptor needed to specify 190 and 290, not 100 and 200. The licensee faxed in a couple new versions of the preceptor the last being on 5/18/07. This action is now complete.
