

## Telephone Record

Michigan Hematology & Oncology Institute  
21-32620-01, 030-37211, CN 316206, ML 071210085  
Conversation with Laura Smith,(LS) RSO on 5/17 & 18, 2007

The reviewer spoke to LS since the letter dated April 30, 2007, stated that they wished to close the site for Mich. Hema. & Ocol. Inst. And that a close-out survey was going to be performed within 30-45 days. LS stated that she had the information and would fax it on 5/18/07 which she did. The only information not sent was the acknowledgment that St. John's Hospital received the Ba-133 source. LS faxed confirmation that St. John's did receive the source is good condition and that the leak test result was negative. This facility is suitable for release.
