Gentlemen:

This refers to your correspondence (Reference 1 above) requesting the renewal of your material license (Reference 2).

Since the Nuclear Regulatory Commission issues material licenses for five year periods, the renewal application should be complete in all respects and reflect your program at the time of the renewal. Therefore, you are requested to submit a complete up-to-date application, without reference to any previously submitted information, supplying all of the information as outlined in the guide (Reference 3).

We will continue our review upon receipt of the completed application, in duplicate, as indicated above. Please refer to your assigned mail control number (Reference 4) in your reply. Your current license will not expire until final action has been taken on the license renewal.

Sincerely,

Paul R. Guinn
Radioisotopes Licensing Branch
Division of Fuel Cycle and
Material Safety
