Dear Mr. Peterson

By letter dated June 9, 2006, you submitted relief request MC-GRP-01, for the third 10-year inservice testing (IST) program for McGuire Nuclear Station, Units 1 and 2. You requested approval of proposed alternatives to the American Society of Mechanical Engineers (ASME), *Boiler and Pressure Vessel Code* (Code), 1998 edition through the 2000 addenda. The proposed alternatives were associated with pump vibration for various safety-related pumps. Subsequently, you determined that you would not pursue this issue; and, in a telephone conversation on April 12, 2007, between Mr. Kenneth Ashe of your staff and me, you explained that you planned to withdraw the relief request. Unless you notify the NRC that this information is incorrect 15 calendar days after the date of this letter, we will consider the application to be withdrawn and close this action.

Sincerely,

/RA/
