Subject: YOUR CONCERNS ON DRWYWELL SHELL THICKNESS

Mr. Webster, last night at the Oyster Creek Annual Assessment meeting, you expressed concerns about new information you found in the hearing discovery process related to license renewal. You felt the new information is applicable to current operability issue you discussed in a March 2007 letter to us.

You indicated last night that you would send me the new information. For convenience could you send your March letter also. As Mr. Collins indicated we will get back to you shortly if we see any immediate safety concerns.

It will be appreciated if you can reply to all and send the information to Mr. Meyer also.
