NRC PROJECT #750
AMERENUE – CALLAWAY PLANT
NOTIFICATION OF SITE SELECTION

Reference: Letter ALNRC 00001 dated April 5, 2007, "Plans for Pursuing Environmental Impact Studies and Site Geotechnical Exploration to Support Combined License (COLA) Submittal"

The purpose of this letter is to advise the NRC that AmerenUE has selected the Callaway Site as the basis for submitting a Combined License Application (COLA) to the NRC. As outlined in AmerenUE letter ALNRC 00001 (reference), environmental studies and other activities are underway to support submittal of the COLA to the NRC in the third quarter of 2008. No decision to build the U.S. EPR at the Callaway site has been made at this time.

If you have any specific questions concerning this, please contact me at (573) 676-8241 or George Wrobel at (585) 771-3535.

Sincerely,

A handwritten signature in black ink, appearing to read "T. E. Herrmann", written over a horizontal line.

T. E. Herrmann
Vice President,
Nuclear Engineering
